Well in 300 north, n. e. l.

**The declaration of this
present Almanache.**

**The golde nombre is. iii. The circle
of y sonne is. x. The sondayes letter
is. B. Indictio Romana is. xlii.**

**Betweene Christmas & Shrovetide
is. ix. weekes and one daye. As for
y holy dayes, both mouable, & other,
shal ye fynd i theyr due places, w the
Wigiles & Emptyng dayes, and the
nombre of euery daye of the moneth.**

**Ye shal find also y gospel for euery
sondaye in y yere, & in what daye the
sonne doth entre any of y. xij. sygnes
celestial. Ye shal also fynd the new
& full mones w theyr quarters when
they do change, & the sygnes w the
nōbre of the degrees wherin y mone
doth raygne euery daye. And whē y
Term doth begyn & end. And what
hour y son ryseth euery month in the
yere & whē she goeth doune. Also
ye shal fynde a Table wherin ye shal
haue the Ebbes & floudes for euer.**

**Item ye shall fynd also marked the
chose dayes to let blood, or to take re
cepts or such like necessary thiges w
these sygnes folowynge.**

good let bloud befor noon. **+**
 good let bloud at aft noon. **+**
 good let bloud p hole day. **+**
 good take medcy befor noon. **+**
 good take medcy aft noon. **+**
 good take medcy p hole day. **+**
 good to Lowe. **+**
 good to bathe. **+**

¶ And ye shall also take good hede, p
 ye let no bloude w boxes, nor w a y
 other instrumentes in any maner of
 baynes, where p mone is in. As w
 the mone is in pisces, than ye shall
 not let bloud the baynes of the feete.

¶ Of the Eclypse of the Moone.

¶ In this presēt yere of Eli. we
 shall haue .ij. Eclipses, wher
 of the fyrst shall be, the eclypse of the
 Moone the .xij. day of Marche at .ij.
 of the clock, & .xxxix. m. befor noon,
 the myddes of p same eclypse shall be
 at .iiij. of p clock. xxviii. m. befor noon
 the ende shall be at .vi. of the clock. xviij.
 m. befor noon. This same eclypse
 shall endure. iij. houres, & .xxxviij. m.
 Wherfore the same eclypse (as Ptolome
 techeth vs in his .ij. boke Apote
 lismatō, his opacion shall endure a

bonte. iiii. monethes & .xx. dayes, And
this eclypse shalbe vniuersal so þ the
mone shalbe hole darkened, for þ dar
kenes shalbe of the gretnes of .xv. or
.xvi. poynthes.

Of the eclypse of the Sonne.

The second eclypse
shalbe of the sonne,
the .xxi. daye of Au
gust, betwene .xii. of
the clocke, & one of þ
clock, incontynēt af
ter noon. And the fourth parte of the
sonne shalbe all darkned, wherfoze þ
same Eclypse shalbe particuler of iiii.
poynthes. And in þ yere to come of xlii
(yf god be pleased) his specification
shalbe declared throughe the dystāce
of the dyētal corner, where the same
eclypse shal gyue her influence, so as
Ptolome wyrteth vs. The same E
clypse shal not i this presēt yere gyue
her operation or influēce. Wherfoze
as now, we wyl wyrite no moze this
presēt yere.

For daryng and leryng of
bloode,

T Batches anayle moche in signes
saite to let bloud, & specially whe the
moone is in Libra oz Pisces, but be
ware yf you opene no bayne wth no yron
what tyme yf moone hath any distacio
in what signe oz meebre yf it be in, for
this is perreaned i the greued meebre
yf is subiect unto the signe, wherin yf
moone is wth y^{er} daye, wherfore it fo
loweth as Ptolome sayth in his co
clusio, yf it is not lefull to open that
membze as longe as the moone is in
that signe.

Chowyng graftinge oz platinge.
It is coueniente to sowe whe the
moone is in Taurus, Can. Lib. vir. &
Cap. & yf y^e erth be moyste, aft y^e full
moone, & yf it be drye, than sowe whā
the moone increaseth. Tau. & Aqua,
are signes coueniet for platinge.

Impznted at London in
Water goster House, at
the signe of our
John Redman, Anno
Impzimentum

1601.
